MOHD SUHAIL

MERN FULL-STACK DEVELOPER

suhailahamad7860@gmail.com | +91-7505569004 | Mahipalpur, New Delhi
LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

MERN Full-Stack Developer with hands-on experience developing web applications using JavaScript, React.js, Node.js, Express.js, and MongoDB. Skilled in REST API integration, frontend and backend development, database management, and Git/GitHub. B.Tech graduate in Artificial Intelligence & Machine Learning with experience in AI/ML-based applications and data migration solutions.

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, SQL, C, C++
Frontend Development: React.js, HTML5, CSS3
Backend & APIs: Node.js, Express.js, FastAPI, REST APIs, JWT
Databases: MongoDB, MySQL
AI/ML: Machine Learning, Pandas, NumPy
Tools: Git, GitHub, Postman, VS Code, PyCharm

PROJECTS

1. Mandi24.in — Agricultural Marketplace
Tech Stack: React.js, MongoDB, Express.js, Node.js

- Worked on the Category and Subcategory Module to organize agricultural products into structured categories such as Pets, Crops, Dairy Products, Farm Equipment, and Vegetables & Fruits.
- Implemented category-based product navigation, enabling users to browse relevant agricultural products through their respective categories and subcategories.
- Improved product discoverability through a hierarchical category structure, allowing users to navigate product classifications more efficiently.
- Developed and integrated APIs to fetch category and subcategory data dynamically from the database.
- Implemented parent-child relationships between categories and subcategories to maintain a structured product classification system.
- Worked on database operations to retrieve and manage category and subcategory records efficiently.
- Live Demo: mandi24.in

2. TaskFlow — Team Task Management System
Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, REST APIs

- Built a full-stack task management application on the MERN stack to manage daily tasks and team activities.
- Implemented task creation, editing, deletion, status updates, priority levels, categories, and due dates.
- Developed project management, team member assignment, subtasks, comments, notifications, and activity tracking features.
- Created REST APIs with Node.js and Express.js, stored data in MongoDB, and secured protected routes with JWT authentication.
- Live Demo: GitHub

3. Intelli-Migrate — Data Migration Platform
Tech Stack: React.js, Python, FastAPI, REST APIs, SQL, MongoDB

- Engineered a platform that migrates data from formats such as JSON, XML, and CSV into relational databases.
- Delivered data processing, automatic schema mapping, and database normalization features.
- Integrated Isolation Forest for anomaly detection and SQL script generation for supported relational databases, achieving 91%+ schema mapping accuracy and 95%+ anomaly detection performance.
- Live Demo: GitHub

WORK EXPERIENCE

Web Development Intern — Kush IT World | July 2025 – August 2025

- Developed frontend components using HTML, CSS, JavaScript, and React.js.
- Integrated REST APIs and contributed to application performance improvements.
- Implemented database operations and backend logic on real-world projects.
- Collaborated with team members to deliver functional features.

EDUCATION

- **B.Tech in Artificial Intelligence & Machine Learning** — Dr. A.P.J. Abdul Kalam Institute of Technology, Tanakpur | 2022–2026
- **Class 12 (CBSE)** — Apex Advance Studies Public School | 2021
- **Class 10 (CBSE)** — Apex Advance Studies Public School | 2019

CERTIFICATIONS

- MERN Stack — Simplilearn SkillUp (2025)
- Generative AI Workshop — NxtWave (2024)
- JPMorgan Chase Quantitative Research Simulation — Forage
- Deloitte Data Analytics Simulation — Forage

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Quick Learner
- Communication
