MOHD SUHAIL

MERN FULL-STACK DEVELOPER

suhailahamad7860@gmail.com | +91-7505569004 | Mahipalpur, New Delhi
LinkedIn: linkedin.com/in/mohdsuhail-btech | GitHub: github.com/MohdSuhail-k | Portfolio: mohdsuhail-k.github.io

PROFESSIONAL SUMMARY

MERN Full-Stack Developer (B.Tech in AI/ML, 2026) with hands-on experience building full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Built 3 projects, including a live agricultural marketplace (mandi24.in), and completed a web development internship. Skilled in REST API development, JWT authentication, and database operations, with additional exposure to machine learning and data migration. Seeking an entry-level Full-Stack Developer role.

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, SQL, C, C++
Frontend Development: React.js, HTML5, CSS3, Responsive Design
Backend & APIs: Node.js, Express.js, Mongoose, REST APIs, JWT Authentication
Databases: MongoDB, MySQL
AI/ML: Machine Learning, Pandas, NumPy
Tools: Git, GitHub, Postman, VS Code, PyCharm

WORK EXPERIENCE

Web Development Intern — Kush IT World | July 2025 – August 2025

- Developed responsive frontend components using HTML, CSS, JavaScript, and React.js.
- Integrated REST APIs and contributed to web application performance improvements.
- Implemented database operations and backend logic on real-world projects.
- Collaborated with team members to deliver functional application features.

PROJECTS

1. Mandi24.in — Agricultural Marketplace

Tech Stack: React.js, REST APIs (MERN stack project)

- Developed the Category and Subcategory module in React.js to organize agricultural products into structured categories: Pets, Crops, Dairy Products, Farm Equipment, and Vegetables & Fruits.
- Integrated REST APIs to fetch category and subcategory data dynamically and render it in the user interface.
- Implemented category-based product navigation, allowing users to browse products through categories and subcategories.
- Built the parent-child category flow in the interface so users can find relevant products more easily.

Live Demo: mandi24.in

2. TaskFlow — Team Task Management System

Tech Stack: React.js, Node.js, Express.js, MongoDB, Mongoose, Socket.IO, JWT, REST APIs

- Built a full-stack MERN task management system with task CRUD, priorities, categories, due dates, recurring tasks, subtasks, comments, and filters.
- Developed project management and team features, including project-wise task organization, team member assignment, notifications with read status, and activity history tracking.
- Implemented secure authentication with JWT, bcrypt password hashing, OTP verification, password recovery, and protected routes.
- Integrated real-time updates with Socket.IO and built a dashboard with task statistics and charts using Recharts; responsive UI with light/dark themes.

3. Intelli-Migrate — Data Migration Platform

Tech Stack: React.js, Python, FastAPI, REST APIs, SQL, MongoDB

- Engineered a data migration platform that transforms JSON, XML, and CSV data for relational databases.
- Delivered data processing, automatic schema mapping, and database normalization features.
- Integrated Isolation Forest anomaly detection and SQL script generation for supported relational databases.
- Achieved 91%+ schema mapping accuracy and 95%+ anomaly detection performance; built with React.js and FastAPI.

EDUCATION

- B.Tech in Artificial Intelligence & Machine Learning — Dr. A.P.J. Abdul Kalam Institute of Technology, Tanakpur | 2022–2026
- Class 12 (CBSE) — Apex Advance Studies Public School | 2021
- Class 10 (CBSE) — Apex Advance Studies Public School | 2019

CERTIFICATIONS

- MERN Stack — Simplilearn SkillUp (2025)
- Generative AI Workshop — NxtWave (2024)
- Forage Job Simulations — JPMorgan Chase Quantitative Research, Deloitte Data Analytics
